The wildly popular YouTube star behind Clean My Space presents the breakthrough solution to cleaning better with less effort Melissa Maker is beloved by fans all over the world for her completely re-engineered approach to cleaning. As the dynamic new authority on home and living, Melissa knows that to invest any of our precious time in cleaning, we need to see big, long-lasting results. So, she developed her method to help us get the most out of our effort and keep our homes fresh and welcoming every day.

In her long-awaited debut book, she shares her revolutionary 3-step solution:

- Identify the most important areas (MIAs) in your home that need attention
- Select the proper products, tools, and techniques (PTT) for the job
- Implement these new cleaning routines so that they stick

Clean My Space takes the chore out of cleaning with Melissa's incredible tips and cleaning hacks (the power of pretreating!) her lightning fast 5-10 minute "express clean" routines for every room when time is tightest, and her techniques for cleaning even the most daunting places and spaces. And a big bonus: Melissa gives guidance on the best non-toxic, eco-conscious cleaning products and offers natural cleaning solution recipes you can make at home using essential oils to soothe and refresh. With Melissa's simple groundbreaking method you can truly live in a cleaner, more cheerful, and calming home all the time.

Fully revised and expanded for the first time in a decade, this is Guy Kawasaki's classic, bestselling guide to launching and making your new product, service, or idea a success. Whether you're an aspiring entrepreneur, small-business owner, intrapreneur, or not-for-profit leader, there's no shortage of advice on topics such as innovating, recruiting, fund raising, and branding. In fact, there are so many books, articles, websites, blogs, webinars, and conferences that many startups get paralyzed, or they focus on the wrong priorities and go broke before they succeed. The Art of the Start 2.0 solves that problem by distilling Guy Kawasaki's decades of experience as one of the most hardworking and irreverent strategists in the business world. Guy has totally overhauled this iconic, essential guide for anyone starting anything. It's 64 percent longer than version 1.0 and features his latest insights and practical advice about social media, crowdfunding, cloud computing, and many other topics. Guy understands the seismic changes in business over the last decade: Once-invulnerable market leaders are struggling. Many of the basics of getting established have become easier, cheaper, and more democratic. Business plans are no longer necessary. Social media has replaced PR and advertising as the key method of promotion. Crowdfunding is now a viable alternative to investors. The cloud makes basic infrastructure affordable for almost any new venture. The Art of the Start 2.0 will show you how to effectively deploy all these new tools. And it will help you master the fundamental challenges that have not changed: building a strong team, creating an awesome product or service, and facing down your competition. As Guy likes to say, "Entrepreneur is a state of mind, not a job title." His book will help you make your crazy ideas stick, through an adventure that's more art than science - the art of the start.

Discover the intricacies of American Sign Language with this comprehensive, essential guide to learning the basics of sign language. The appeal of American Sign Language (ASL) has extended beyond the Deaf community into the mainstream—it's even popular as a class in high school and college. You are guided through the basics of ASL with clear instruction and more than 300 illustrations. With a minimum of time and effort, you will learn to sign: the ASL alphabet; questions and common expressions; numbers, money, and time. With info on signing etiquette, communicating with people in the Deaf community, and using ASL to aid child development, this book makes signing fun for the entire family.

With 1855-1927 are issued and bound: Handelingen van de algemeene vergadering.

How to Innovate and Execute Leaders already know that innovation calls for a different set of activities, skills, methods, metrics, mind-sets, and leadership approaches. And it is well understood that creating a new business and optimizing an already existing one are two fundamentally different management challenges. The real problem for leaders is doing both, simultaneously. How do you meet the performance requirements of the existing business—one that is still thriving—while dramatically reinventing it? How do you envision a change in your current business model before a crisis forces you to abandon it? Innovation guru Vijay Govindarajan expands the leader's innovation tool kit with a simple and proven method for allocating the organization's energy, time, and resources—in balanced measure—across what he calls "the three boxes":

- Box 1: The present—Manage the core business at peak profitability
- Box 2: The past—Abandon ideas, practices, and attitudes that could inhibit innovation
- Box 3: The future—Convert breakthrough ideas into new products and businesses

The three-box framework makes leading innovation easier because it gives leaders a simple vocabulary and set of tools for managing and measuring these different sets of behaviors and activities across all levels of the organization. Supported with rich company examples—GE, Mahindra & Mahindra, Hasbro, IBM, United Rentals, and Tata Consultancy Services—and testimonies of leaders who have successfully used this framework, this book solves once and for all the practical dilemma of how to align an organization on the critical but competing demands of innovation.

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Includes publications received in terms of Copyright Act no. 9 of 1916.

This study focuses on the work of four Victorian anti-feminist women writers - Eliza Lynn Linton, Charlotte M. Yonge, Mrs Humphry Ward, and Margaret Oliphant - examining their self-contradictory responses to the debate about women's role in family life and society. Individual chapters review women's anti-feminism from 1792-1850, and fresh readings of their best-known novels emphasize the inconsistencies of their masculine and feminine ideals.
