to the patient and ensure the patient understands that exam results will be documented.

Mental Status Exam (MSE) — Factors and Definitions

...

MENTAL STATUS EXAM. The Mental Status Exam (MSE) is an assessment of the individual's current state of mind. It assesses the range, quality, and depth of perception, thought processes, feelings, and psychomotor actions. Direct observation of the individual is required for the completion of the MSE. The observation occurs before, during and after the formal clinical interview while the clinician is in direct view of the individual.
