Open the glove compartment all the way and remove the screw on the lower right side. Pull the loop from the arm over and off the cylinder where the screw was. Don't lose the screw. On a Highlander, you may be able to remove the loop without removing the screw, which is below and behind the glove compartment; leave the glove compartment closed while removing the loop, then open it.

Hi, I have a 2006 toyota corolla. How do I get access to the fuse box under the passenger side dash of the car, I think it is behind the glove box ?, this is what the manual points to. if so, do I need to remove the glove box to get to it or is there an easier way ? I have lost power to my radio and auto rearview mirrors.
