Stonehenge is a prehistoric monument in Wiltshire, England, two miles (3 km) west of Amesbury. It consists of a ring of standing stones, each around 13 feet (4.0 m) high, seven feet (2.1 m) wide, and weighing around 25 tons.

[Stonehenge - Wikipedia](#)

One of England's oldest mysteries, Stonehenge, is a Stone Age Monument that is visited by thousands annually. This monument is over 3500 years old and is still in great and solid condition. There is no documented purpose for this monument but it has been referred to as a burial place, a calendar, and a place of worship and sacrifice.

[Tripadvisor | Stonehenge, Windsor Castle, and Bath from ...](#)

Stonehenge's orientation on the rising and setting sun has always been one of its remarkable features. Whether this was simply because the builders came from a sun-worshipping culture, or because - as some scholars believe - the circle and its banks were part of a huge astronomical calendar, remains a mystery. The stone circle itself forms the highlight of any visit to the World Heritage ...
