Extensively refined and updated, this new edition on conducting posits that conducting is a time-space art. It builds basic book techniques and includes additional band scores excerpts, placed in proximity with the classic repertoire. The text adds new baton timing techniques, and shows the relationships of time, speed, and motion. Key words and principles are highlighted in boldface or italics. This book states a new principle regarding gesture-speed as related to dynamics and phrasing. Drills to train the mind and hands simultaneously are presented. Complete diagrams, all time-beating patterns, and logical classification of expressive gestures are included. Offers manual-technique photo illustrations and a wealth of music examples that show the application of techniques. Features an extensive appendix that includes seating charts, language tables (scores), less common terms, and an outline of musical form to aid in score study. For musicians.

Written in a clear style that speaks directly to the serious conducting student, The Modern Conductor, Seventh Edition, maintains Dr. Elizabeth A.H. Green's time-honored approach to conducting technique while offering new insights into opera conducting, career-building, and score study. Building on the concept of conducting as a time-space activity, co-author Mark Gibson clarifies the pedagogical ideas of the legendary Russian maestro, Nicolai Malko, as first put forth by Dr. Green. The Seventh Edition incorporates into Malko's classic approach a heightened emphasis on the role of the conductor and the non-technical skills that the aspiring conductor must acquire to prepare for a podium career in the twenty-first century. Among the topics included are: The Usefulness of the Baton Expressive Gestures "Zig-Zag" Audition/Rehearsal Checklist The student will attain insights into handling contemporary scores and unconventional notation, as well as instrumental and choral conducting and aspects of advanced musicianship in relation to wind ensemble, orchestra and chorus. Important concepts and terms are highlighted to enable the reader to find them quickly. Exercises and drills are included in the text to reinforce critical concepts and skills.

From the publisher. Basic Conducting Techniques is a practical and innovative textbook that provides sound, time tested procedures and material for the beginning conducting class. Students and professors have responded enthusiastically to the hands-on, conductor competency approach of this student-oriented textbook with its clearly stated objectives and performance tests.

(Meredith Music Resource). This incredible book by one of the world's foremost authorities on conducting contains no conducting patterns, and no advice on how to conduct any piece. Instead, it focuses on the skills, knowledge and experiences needed to become and function as a conductor-teacher. "This

text is a 'must have' for all serious musicians. It captures the legacy and wisdom of one of the most important conductors of our time. This is what can happen when a focused and inquisitive mind meets up with a uniquely creative imagination." An exuberant, uniquely accessible, beautifully illustrated look inside the enigmatic art and craft of conducting, from a celebrated conductor whose international career has spanned half a century. John Mauceri brings a lifetime of experience to bear in an unprecedented, hugely informative, consistently entertaining exploration of his profession, rich with anecdotes from decades of working alongside the greatest names of the music world. With candor and humor, Mauceri makes clear that conducting is itself a composition: of legacy and tradition, techniques handed down from master to apprentice--and more than a trace of ineffable magic. He reveals how conductors approach a piece of music (a calculated combination of personal interpretation, imagination, and insight into the composer's intent); what it takes to communicate solely through gesture, with sometimes hundreds of performers at once; and the occasionally glamorous, often challenging life of the itinerant maestro. Mauceri, who worked closely with Leonard Bernstein for eighteen years, studied with Leopold Stokowski, and was on the faculty of Yale University for fifteen years, is the perfect guide to the allure and theater, passion and drudgery, rivalries and relationships of the conducting life.

A journey through a land where Milo learns the importance of words and numbers provides a cure for his boredom.

CONTEMPORARY MUSIC EDUCATION explores the theory and practice of teaching music by placing it in the broader context of culture and history. This core text offers music education students a practical and rigorous overview of the profession, covering curriculum development, assessment, and advocacy, while examining the changes brought about by technology, social justice movements, and a half-century of educational reforms. Modern Commercial Wiring is an outstanding new title by the author of the widely used Goodheart-Willcox text, Modern Residential Wiring. This textbook, based on the 1999 National Electrical Code "RM", provides students with a comprehensive resource for the more complex wiring requirements of commercial installations. It includes thorough coverage of such specialized areas as motor control, emergency power systems, installations in hazardous locations, and pool and fountain installations.
