It is early 1952 and in Panamá the CIA is using "enhanced chemical interrogations" on former Soviet agents who have come over to the American side. Ostensibly, this is to determine the veracity of the agents, to determine whether they are true walk-ins or if they are, in reality, Soviet plants. But agents are dying under interrogation and Sam is determined to get to the bottom of it all. And what he eventually finds appears to be a conspiracy to protect the identity of an American turncoat hidden somewhere within the depths of The Agency. Closer to home, Sam is tasked with making sure the current president of Panamá is ousted prior to the American presidential election in November. Sam wants to accomplish this task with finesse and a lack of bloodshed by inducing a Panamanian coup, but he is given the order to get the job done by any means necessary. But Spears has close Panamanian friends and loved ones who may suffer harm in any collateral damage. Sam knows he must tread a careful path.

Elysium Fire is a smoldering tale of murderers, secret cultists, tampered memories, and unthinkable power, of bottomless corruption and overpowering idealism from the king of modern space opera. Ten thousand city-state habitats orbit the planet Yellowstone, forming a near-perfect democratic human paradise. But even utopia needs a police force. For the citizens of the Glitter Band that organization is Panoply, and the prefects are its operatives. Prefect Tom Dreyfus has a new emergency on his hands. Across the habitats and their hundred million citizens, people are dying suddenly and randomly, victims of a bizarre and unprecedented malfunction of their neural implants. And these "melters" leave no clues behind as to the cause of their deaths. . . As panic rises in the populace, a charismatic figure is sowing insurrection, convincing a small but growing number of habitats to break away from the Glitter Band and form their own independent colonies.

A librarian with deceptively dangerous skills is sent back in time to Tzarist Russia in this "laugh-out-loud farce" and homage to Muriel Spark (Publishers Weekly, starred review). Never underestimate a librarian. Comfortable padded and in her middle years, Shona McMonagle may look bookish and harmless, but her education at the Marcia Blaine School for Girls has left her with a deadly expertise in everything from martial arts to quantum physics. It has also left her with a bone-deep loathing for The Prime of Miss Jean Brodie, that scurrilous novel that spread scandalous untruths about the finest educational institution in Edinburgh. Shona's skills, her deceptively mild appearance, and her passionate loyalty make her the perfect recruit for an interesting new project: time travel to Tzarist Russia, prevent a gross miscarriage of romance, and—in any spare time—see to it that only the right people get murdered. It's a big job, but no task is too daunting for a prefect from Miss Blaine's. "A delightful addition to the ranks of comic crime." —The Guardian, UK

Inside a Girls' Boarding School. So much has been written of young men in boarding schools that it is high time young women were given their due. The Prefect presents us a fascinating tale of a girls' school, the author letting her imagination race in this epic of education by flagellation.

Previously published as THE PREFECT. A rollercoaster ride through the dark and turbulent universe of REVELATION SPACE: an interstellar thriller where nothing - and no one - is what they seem ... Tom Dreyfus is a Prefect, a policeman of sorts, and one of the best. His force is Panoply, and his beat is the multi-faceted utopian society of the Glitter Band, that vast swirl of space habitats orbiting the planet Yellowstone. These days, his job is his life. A murderous attack against a Glitter Band habitat is nasty, but it looks to be an open-and-shut case - until Dreyfus starts looking under some stones that some very powerful people would really rather stayed unturned. What he uncovers is far more serious than mere gruesome murder: a covert takeover bid by a shadowy figure, Aurora (who may once have been human but certainly isn't now), who believes the people of the Glitter Band should no longer be in charge of their own destiny. Dreyfus discovers that to save something precious, you may have to destroy part of it. 'An adroit and fast-paced blend of space opera and police procedural, original and exciting' George R. R. Martin
